Responses to all questions and the answers should not exceed 250 words per response.

Presentation of Nominated: Katarina Strömberg
Nominated by: PMI Sweden Chapter Nominating Committee
Date: 19 November, 2015

Personal presentation

I am an enthusiastic and dedicated person that always sees things from the bright side. The joy of accomplishing things together with my team is a key driver in my life. I constantly seek challenges and find it very rewarding to work with competent people and learn new things. My leadership is focused on communication, clear targets and roles and on respect for individuals as well as the whole team. By having fun while we work, I believe we can accomplish great things!

2. My professional career and current work position

My current position is as Project and Program Manager consultant at ÅF, where I have had assignments in technology and product development in e.g. Tetra Pak and SonyEricsson. Before that I had a research position at AstraZeneca in Lund, developing and implementing new technology in the chemical analysis field. I have also been employed at other pharmaceutical and biotechnology companies in either Manager or Project Manager positions. I hold a Master of Science and a Licentiate of Engineering from Chalmers University, Göteborg.

3. Family and what I do on my spare time:

I live in a big house in Skivarp with my husband Jonas and two children, Teo (11 years old) and Carla (8 years old). I spend a lot of time with my family and also with tending to my spacious garden. My other big volunteer interest is in Friskis&Svettis, where I lead dance and aerobic classes each week.

4. Value that I bring to PMI

I can contribute to PMI with my enthusiasm and energy. I am a good leader and can inspire others to deliver with excellence. My organization skills are excellent, both with regards to teams but also to the specific tasks needed to reach our goals. To see joy in everything we do, and bring a positive working climate to the team, will be part of my contributions. My track record shows that I am willing to put in that extra mile to reach our goals and that I constantly seek to develop the organization.

Why volunteering for PMI is important for me

I truly believe that professional Project Management is important for our society and for the whole world. Project Management is key both for industry and the public sector. If I can contribute with a small piece to develop the profession I would be very satisfied.

I also very much enjoy meeting and working with peers. To continuously gain new knowledge and insights are very rewarding to me.
